#### NOTES TO OFFERORS

NOTE NO. 1. To better facilitate the evaluation of prices, all pricing modifications are to be submitted on copies of the latest schedules as published in the solicitation or the latest amendment thereto on the Internet. In lieu of indicating additions/deductions to contract line items (CLINS), all offerors should state their revised prices for each item. The company name should be indicated on the face of the schedule to preclude being misplaced.

NOTE NO. 2. Offerors must insert a price on all numbered items of the Schedule except those annotated with "NOTE USED". Failure to do so may disqualify the bid.

NOTE NO. 3. If a modification to an offer is submitted and provides for a lump-sum adjustment to the total estimated cost, the application of the lump-sum adjustment to each unit price and/or lump-sum price in the schedule must be stated. If it is not stated, the offeror agrees that the lump-sum adjustment shall be applied on a pro-rata basis to every CLIN on the schedule.

NOTE NO. 4. The field overhead costs through the contract duration are inclusive in the offered price for the contract, regardless of whether a compressed schedule is proposed.

NOTE NO. 5. COST LIMITATION:

a. The contract award for design and construction shall not exceed the following limitations (offerors are under no obligation to approach these amounts):

\$14,280,000.00

b. The above cost limitations are based on Conventional Design/Review/Approval/Construction and/or Fast Track Design/Construction Schedule.

NOTE NO. 6. Technical Evaluation Proposal Rating Worksheet, Factor 2-5b, Schedule Information, states that your proposed schedule will be evaluated more favorably if it indicates project completion prior to the Government indicated maximum duration. In addition to those submittals, indicate below your proposed contract completion period and intent of fast tracking. The contract completion days the offeror proposes will be made part of the contract and of which liquidated damages will apply.
